Screen 1: Login Screen

GroceryPal

 email address

 password

[Forgot Password?](#)

LOG IN

Create An Account

Description:

Allows users to sign into their account or create a new one to access GroceryPal features.

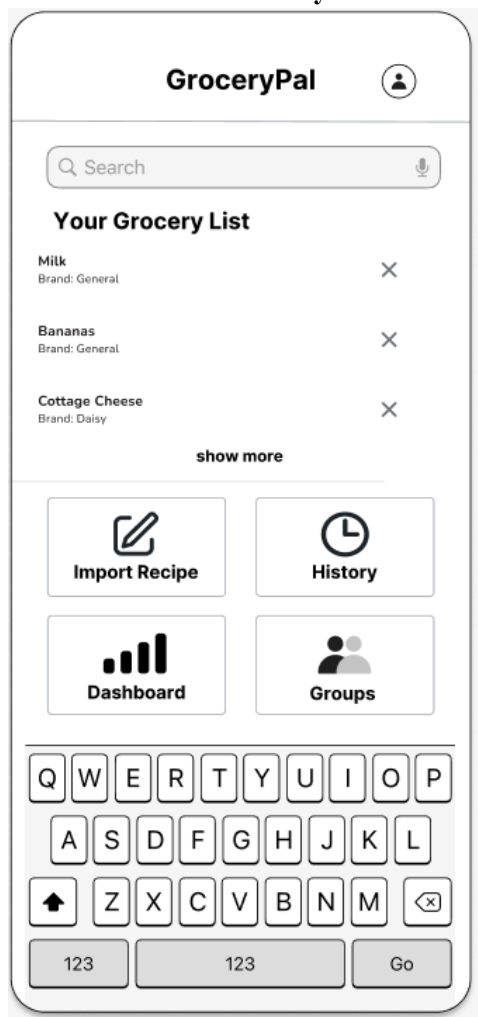

User Tasks:

- Enter email and password
- Log in to account
- Navigate to sign-up option
- Access the app

Interface Elements:

- Email input field
- Password input field
- “Log In” button
- “Sign Up” link/button
- App logo/title

Screen 2: Home / Grocery List Builder

Description:

The main screen where users create and manage their grocery list, set preferences, and navigate to other features.

User Tasks:

- Add items manually to grocery list
- Search for ingredients
- Import a recipe
- Access past grocery lists
- Set brand/store preferences
- Navigate to dashboard or group chats

Interface Elements:

- Search bar
- “Add Item” input field
- Buttons (Import Recipe, History, Dashboard, Group Chats)
- List display (current grocery items)
- Preference toggles/settings
- Bottom navigation bar

123 123 Go

Description:

Allows users to import a recipe to automatically generate a grocery list.

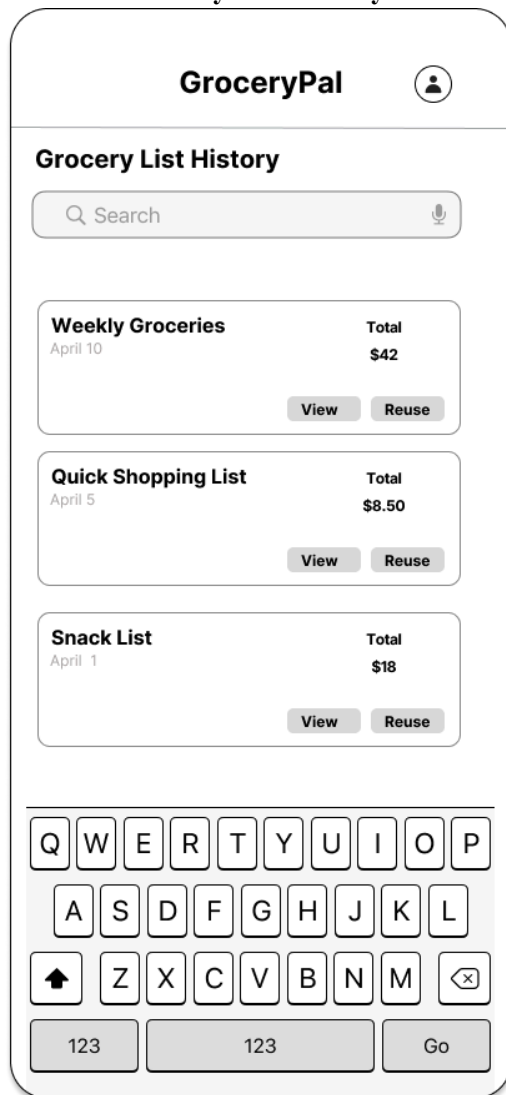

User Tasks:

- Upload a photo of a recipe
- Paste recipe text
- Import ingredients into list

Interface Elements:

- Camera/upload button
- Text input box
- “Import” button
- Instruction text

Screen 4: Grocery List History

Description:

Displays previously created grocery lists that users can reuse or modify.

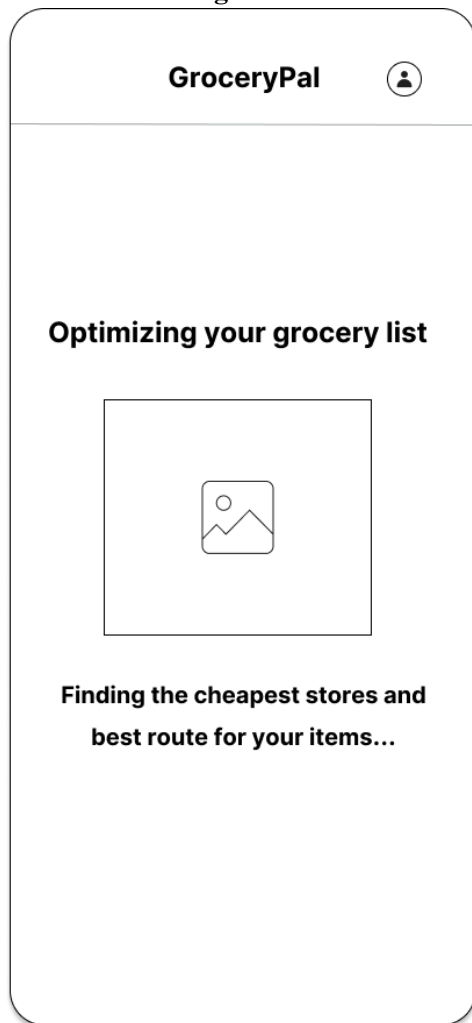

User Tasks:

- View past grocery lists
- Rename lists
- Favorite/star lists
- Select and reuse a list
- Add items to reused list

Interface Elements:

- List of past grocery lists (with dates)
- Rename/edit button
- Star/favorite icon
- “Use List” button

Screen 5: Loading Screen

Description:

Displays while the app processes and generates the optimized grocery list.

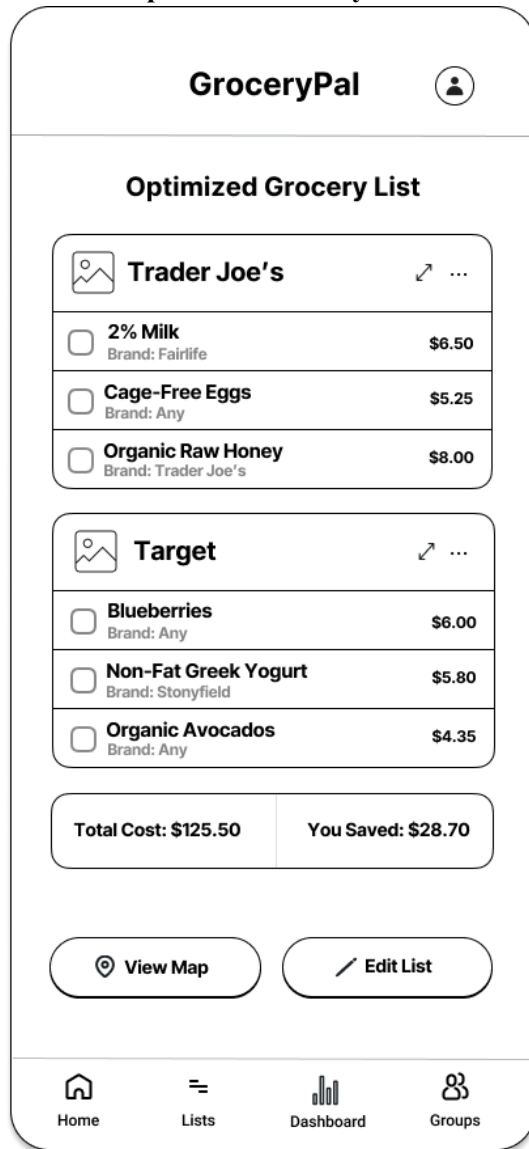

User Tasks:

- Wait for optimization to complete
- View loading progress

Interface Elements:

- Loading spinner or progress bar
- Text (“Optimizing your grocery list...”)
- App logo

Screen 6: Optimized Grocery List

Description:

Displays the most cost-efficient shopping plan by grouping items by store and showing savings.

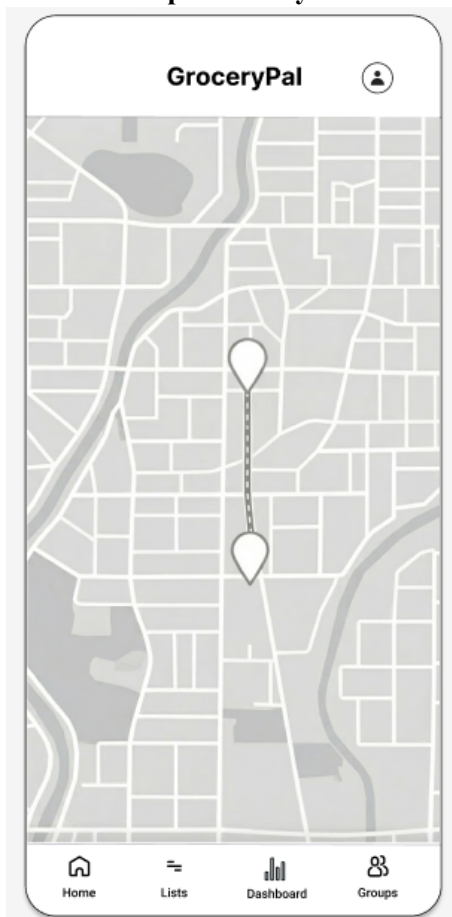

User Tasks:

- View optimized grocery plan
- See items organized by store
- View total cost and savings
- Navigate to map
- Return to edit list

Interface Elements:

- Sectioned list (grouped by store)
- Price labels for items
- Store headers
- Total cost display
- Savings indicator
- Buttons (Map, Edit List)

Screen 7: Map / Grocery Route

Description:

Shows a map with store locations and allows users to view store-specific shopping lists.

User Tasks:

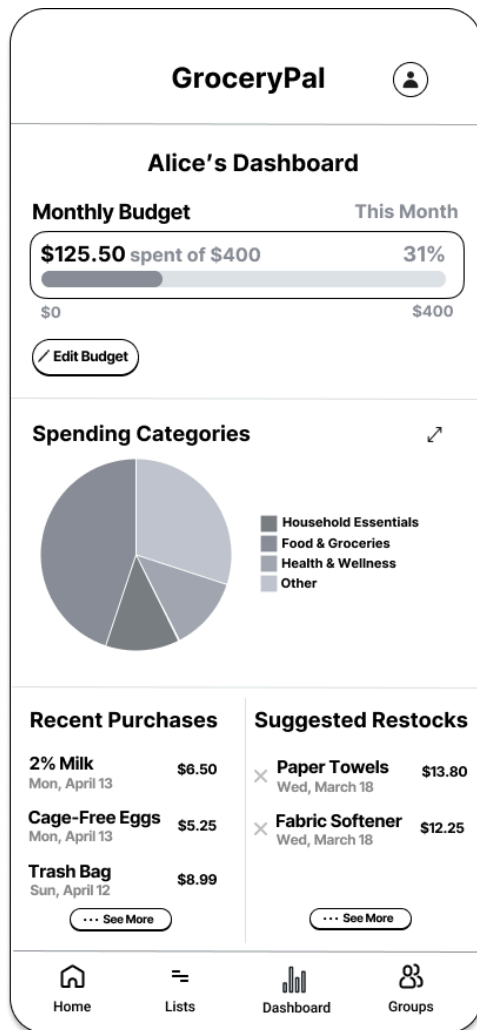

- View nearby stores
- Click on store locations

- Open store-specific item lists
- View route between stores

Interface Elements:

- Map component
- Location pins
- Pop-up store cards
- “Open List” button
- Navigation/route display

Screen 8: Dashboard

Description:

Tracks spending, budget progress, and purchasing habits over time.

User Tasks:

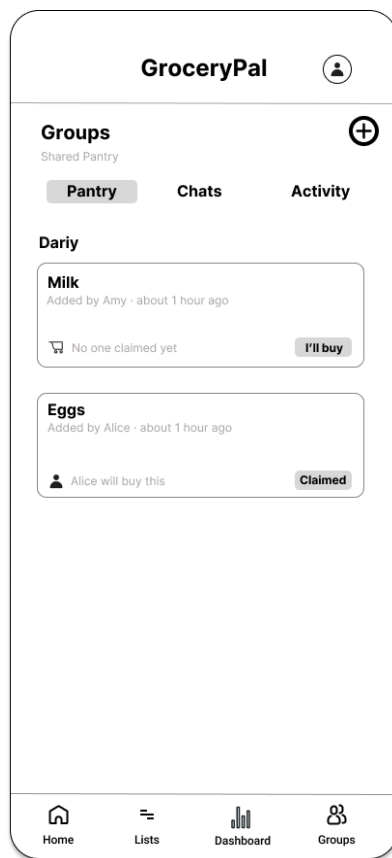

- Set budget and timeframe
- View spending progress

- Analyze spending categories
- View recent purchases
- Identify items to restock

Interface Elements:

- Budget input fields
- Progress bar
- Pie chart
- Recent purchases list
- Suggested restock section
- Navigation buttons

Scene 9: Group - Shared List

Description: This screen shows the shared item list for the group. Users can browse items that need to be purchased, see who added them, and claim responsibility for buying them.

User tasks:

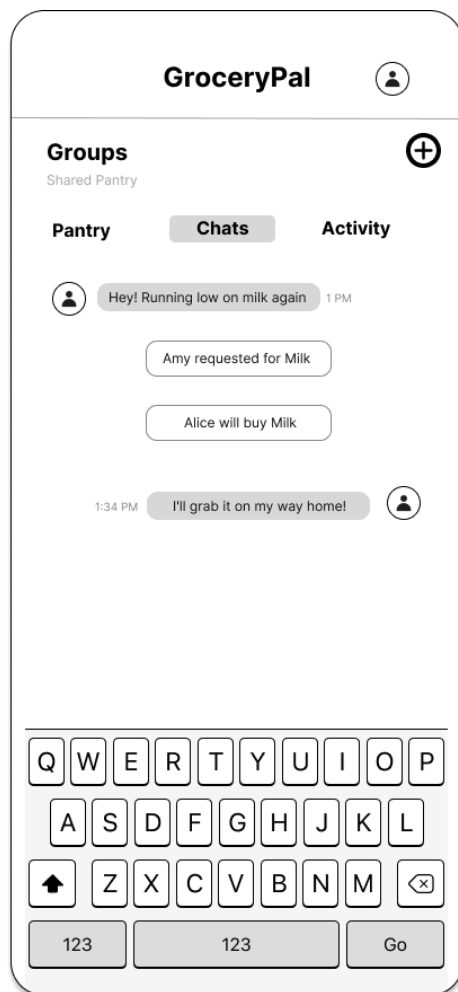

- View items currently on the shared grocery list
- Check item details, such as who added the item and when

- See whether an item has been claimed
- Claim an unclaimed item to buy later
- Navigate to other group sections

Screen elements:

- Tab navigation: Pantry, Chats, Activity
- Category header such as “Dairy.”
- Item cards with item names
- Metadata showing who added the item and when
- Claim status or action button, such as “I’ll buy” or “Claimed”
- Add item through the Plus sign
- Bottom navigation bar

Screen 10: Group - Chats

Description:

This screen allows group members to communicate about grocery needs and coordination. Users can discuss items, make requests, and confirm who will purchase something.

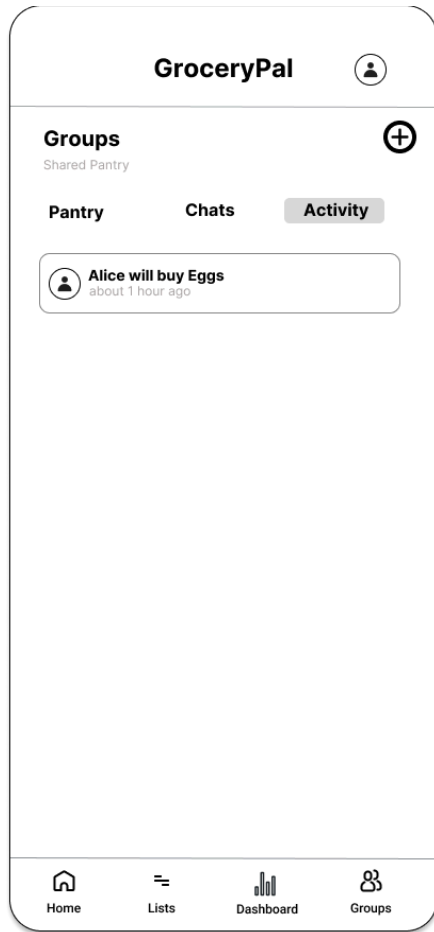

User tasks:

- Read messages from group members
- Send updates or requests about grocery items
- Follow the conversation about who will buy what
- Stay coordinated in real time

Screen elements:

- Group title and section label
- Tab navigation: Pantry, Chats, Activity
- Chat bubbles for messages
- User icons/avatars
- Timestamps
- Message input interaction area
- Bottom navigation bar

Scene 11 Group - Activity:

Description:

This screen displays recent updates in the group so users can quickly understand what has changed. It helps keep everyone informed about who has claimed or interacted with grocery items.

User tasks:

- Review recent group actions and updates
- See who claimed an item
- Stay aware of pantry activity without opening each item
- Navigate between pantry, chats, and activity views

Screen elements:

- Group title and section label
- Tab navigation: Pantry, Chats, Activity
- Activity feed card
- User icon/avatar
- Short update text such as “Alice will buy Eggs”

- Timestamp for the activity
- Add button in the top-right corner
- Bottom navigation bar

123 123 Go

This screen allows a user to add a new grocery item to the shared pantry list. It supports entry by letting the user type an item name and assign it to a category before submitting.

User tasks:

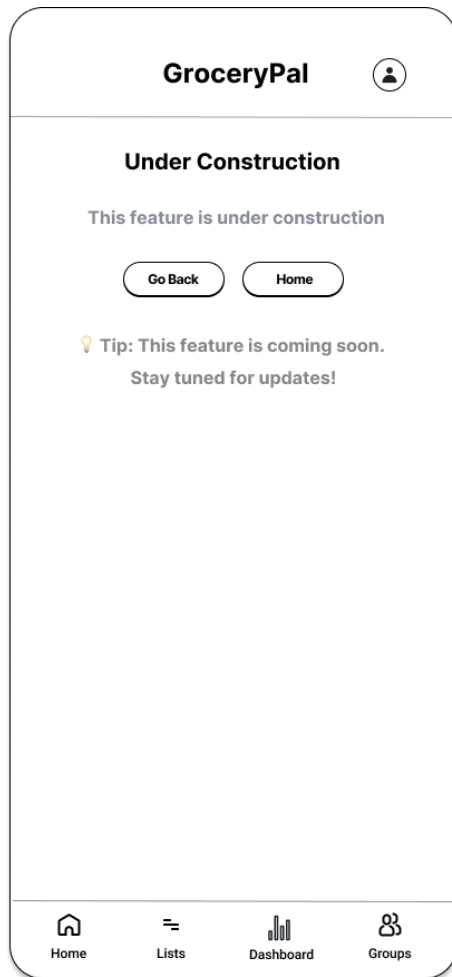

- Enter the name of a grocery item
- Select a category for the item
- Cancel the action if they change their mind
- Add the item to the shared list

Screen elements:

- Screen title: “Add Item”
- Text entry field for item name

- Category labels/buttons such as “Dairy” and “Snacks”
- “Cancel” button
- “Add item” button
- Header with app name and profile icon

Screen 13: Under Construction Screen

Description:

Displayed when users navigate to features that are not yet implemented.

User Tasks:

- Understand feature is unavailable
- Return to the previous screen or home

Interface Elements:

- Message text (“This feature is under construction”)
- “Go Back” button

- “Home” button
